HC40 FRAME™ Advanced and HC40 TWIST™ Advanced

The extra hand control for nursing home and homecare beds

Icons, choose up to 7
An alternative to text - adapted to multicultural use

Battery level indicator for the hand control

Time

Shortcuts - just one click away
We all have two or three functions that we use more than other. The HC40 top row buttons are storing the most used functions

Adaptable display light
The screen brightness adjusts to the surroundings and the light is dimmed at night

Under Bed Light

Simultaneous downward drive

Backlight in buttons

Storage of favourite positions
The bed owner can store up to four favourite bed positions with the HC40

Exchangeable batteries

Systems with HC40 are not applicable with IEC 60601-1 approval

To learn more visit HC40 CARELINE
