

LA20 inline actuator

Compact and elegant with hidden strength

The unexpectedly powerful LA20 stands out for its performance and fits in with its discreet, slim design. The LA20 is designed to meet the demands of a wide range of applications: As design becomes as important as performance, its choice of finishes and fitting flexibility make it the ideal inline actuator for applications where appearance, power and rugged reliability are a given.

Specifications:

High lifting capacity

- 2500 N in push,
- 900 N in pull

Exchangeable cable
for angled Micro-fit plug

Versatile power
12 V or 24 V DC motor

Compact design
Build-in from 220 mm

Feedback options for positioning:
Dual Hall or Hall potentiometer

Slim envelope (36x46 mm)
with black or grey appearance for design flexibility

Patient treatment

Couch

Patient care

Mobility

Hospital bed

The possibilities are endless
