WE IMPROVE YOUR LIFE

LA28

LA28 is primarily a system actuator. The actuator is very quiet and powerful, designed for use in the CARELINE®, MEDLINE® and TECHLINE® areas of business.

The actuator is also ideal for use in agricultural machinery and for a wide range of industrial applications.

Features and options:

- Thrust up to 3500 N (with strong motor)
- Protection class IP51
- 2.3 m straight cable with 6.3 mm jack-plug, (for actuators with reed-switch 2.3 m straight or 0.4 m coiled cable only). For 12V versions 1.5 m straight cable without plug
- Storage temperature -40°C to 70°C
- Available with extra powerful motor (strong motor), increases speed and strength
- Brake - increases self-locking ability for LA28 actuators with 6 or 9 mm pitch with or without strong motor
- Protection class: IPX5 or IPX6
- Reed-switch (LA28 = 8 pulses/spindle rev. and LA28 with strong motor = 6 pulses/spindle rev.)
- Splines function (the actuator can only push)
- Mounting bracket for CB8-T/A control boxes (order number 914078 (grey) and 914054 (black))
- Safety nut for LA28 with 3, 6 or 9 mm pitch/ spindle rev. (push direction)
- 0.2 m and 0.4 m coiled cable
- Built-in CS print ensures electronic overload protection

Usage:

- Duty cycle: Max 10 % or 2 min. continuous use followed by 18 min. not in use
- Ambient temperatures: +5° to +40°C
- Should LA28 be used with a non LINAK control unit, please ask the nearest LINAK representative for further details
- Compatibility: Compatible with LINAK control boxes. Please contact LINAK.
- Approvals: IEC 60601-1, ANSI/AAMI ES60601-1 and CAN/CSA-22.2 No 60601-1

Above data: the measurements are made with the actuators connected to a stable power supply.

A reed-switch has no influence on above mentioned data.
